GOAL

**HOW TO PLAY**

Simply sell each square, we suggest 10p 20p or 50p each. The winner is the person who guesses the correct time of the first goal confirmed by the referee. The winner takes an agreed percentage of the stake collected prior to kick off. The winnings can be carried forward to the next game if a nil-nil draw occurs or a goal is scored in extra time. You can use your own games or any other games where times are reported in the press. Times can apply for the whole season or on a match to match basis. **Copyright free, make as many copies as you like!**
